All information correct at January 2022.*

SOUTHBANK CENTRE

RECORDING / BROADCASTING

Any filming or audio recording of rehearsals or performances at the Southbank Centre, including the public spaces, will incur a facility fee which is in addition to any technical costs incurred. A scale of fees, depending on the intended use of the footage, can be supplied on request.

Please inform your Event Manager if you intend to film or record any part of the rehearsal or performance.

The organisation leading on the capture is responsible for gaining all permissions / licences from artists, and for ensuring the Southbank Centre has no liability in the use of the material for either promotional purposes or for archive purposes.

Please note that the Southbank Centre has the final call on the number of film crews and cameras that can be on site at any one point. We strive for the best customer experience and where possible, we will always aim for the recording to not affect sightlines or unduly distract the audience. Where auditorium seats need to be held off for sightline/camera purposes, you will be liable for covering the cost of these (including any ticket commission on seats owed to the Southbank Centre).

A SC Recording Agreement must be signed in order to proceed; please liaise with your Event Manager who can draw this up for you. Please note that as part of this Agreement all footage must carry the appropriate credits for the Southbank Centre.

If you are using Southbank Centre equipment or staff, technical costs may apply and are in addition to the facility fee. Please see details of available packages as follows:
