

## Southbank Centre Energy Management Policy

The Southbank Centre's vision is **to be the world's most inspiring centre for the arts** and our aim is **to draw everyone possible to this loved site and captivate them through our unique arts programme and the warmth of our welcome**. We recognise that the achievement of our vision results in significant energy consumption and as a result, we are committed to achieving continual improvement of our energy performance.

We have implemented an Energy Management System certified to ISO50001:2011 to promote the efficient implementation of our Energy Policy throughout the organisation and to ensure that we meet and, whenever possible, exceed all legal and other requirements to which we subscribe related to our energy use.

To achieve our policy aims we will:

- Define an energy baseline and appropriate energy performance indicators against which we will monitor our energy performance
- Identify significant energy users within our operations and uncover opportunities for improving energy performance
- Set and monitor measurable energy objectives and targets
- Ensure the availability of information and of necessary resources to achieve the objectives and targets and report progress regularly at all levels within the organisation
- Maintain ISO50001:2011 certification through a programme of continuous improvement and management review
- Support the purchase of energy-efficient products and services, and design for energy performance improvement
- Allocate appropriate resources to ensure the effective implementation of this policy
- Ensure that all SC employees, internal and external stakeholders are made aware of the Energy Policy and the organisations commitment to improving energy performance
- Maintain a Legislation Update service which is reviewed by energy management team
- Ensure the EnMS provides the framework to ensure Energy Targets and Objectives are set and reviewed.

The Energy Policy will be made available to the public, staff and stakeholders upon request and through our website.

This Policy and its implementation will be reviewed regularly and amended as necessary to accommodate changes in the nature and size of our operations.
