TECHNICAL INFORMATION

The room comes equipped with an integrated PA system which supports one cabled microphone and a plug-and-play system for background music.

Southbank Centre has a range of AV equipment available to hire, including PA systems, radio microphones and LCD screens. For presentations, LCD screens are recommended over projectors and screens as this enables multiple layout options and eliminates the need to block out the view.

Public open wifi is available in this space. Dedicated wifi can be supplied at an additional charge.

ADDITIONAL/ASSOCIATED SPACES

If the St Paul's Roof Pavilion is hired when there is no performance taking place in the auditorium, the foyer areas outside the room can be roped off for use by your guests.

There are two outside spaces connected to the St Paul's Roof Pavilion: a small balcony running the length of the room that has stunning views of The Shard and City of London, and a large substantial 'courtyard' area. Note that all balcony and courtyard spaces at Southbank Centre are non-smoking.

This room has its own dedicated food preparation area for use by your chosen caterer, who will supply all equipment required.
